PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student specializing in Artificial Intelligence & Machine Learning (5th Semester) at Parul University. Maintains strong academic consistency with an overall 8.53 CGPA. Proficient in Java, Python, core Data Structures & Algorithms (DSA), and SQL databases. Highly motivated problem solver and active #100DaysOfCode participant with practical experience building desktop, data analysis, and automation tools. Seeking a Software Development or AI/ML Internship to engineer scalable applications.

EDUCATION

Parul University Vadodara, Gujarat
B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning) Expected 2028
Academic Performance: Cumulative CGPA: **8.53** | Highest Term SGPA: **8.95**

TECHNICAL SKILLS

Languages	Java (Core), Python, SQL (Oracle), HTML5, CSS3
Core DSA	Arrays, Strings, Linked Lists, Stacks, Queues, Binary Trees, Recursion, Searching & Sorting
Concepts	Object-Oriented Programming (OOP), Database Management Systems (DBMS), Algorithm Design
Tools & IDEs	Git, GitHub, Visual Studio Code, Oracle SQL Developer, Jupyter Notebooks

PROJECTS

Student Data Analysis App | Python, Pandas, Jupyter [View Code ↗](#)

- Executed comprehensive, programmatic analytical data pipelines over `student_data.csv` records using Python.
- Applied robust data cleaning, preprocessing techniques, and data evaluation metrics to extract actionable academic insights.

Interactive Snake Game | Java, Swing, OOP Framework [View Code ↗](#)

- Engineered an interactive GUI desktop game utilizing Java Swing and strict Object-Oriented Design rules.
- Implemented clear dynamic pixel-grid matrix scaling, precise directional keyboard tracking, and live scoreboard mechanics.

Task Manager Productivity Tool | Python [View Code ↗](#)

- Constructed a modular application script map focused on optimizing daily productivity streams and schedule logging.
- Designed robust backend CRUD data pathways mapping live task assignments, priority tags, and progression updates.

Production-Ready DSA Code Base | Java, Data Structures [View Code ↗](#)

- Developed and open-sourced a comprehensive repository mapping foundational to complex software interview challenges.
- Compiled optimized clean-code solutions tracking recursive patterns, Binary Tree variations, and custom stack structures.

CERTIFICATIONS & ACHIEVEMENTS

- Python Essentials 1:** Professional industry credential awarded by Cisco Networking Academy & Python Institute.
- Java (Basic) Competency:** Technical skill badge certified by HackerRank validating programming logic proficiency.
- Problem Solving Milestones:** Solved 40+ algorithm challenges across LeetCode & HackerRank platforms to refine problem analysis skills.
- Technical Consistency:** Actively maintaining a regular programming streak via the industry-recognized **#100DaysOfCode** challenge.
- Academic Track Record:** Recognized for strong performance consistency at Parul University, maintaining an 8.53 cumulative CGPA.
